Email: n.jani@pgrad.unimelb.edu.au

CLOSING DATES

ABSTRACTS DUE

Fri 31st July 2009

REGISTRATION

Fri 28th August 2009

ABSTRACT FORMAT

ASCEPT Cardiovascular Special Interest Group Regional student-supervisor research day

Those who wish to present an oral or poster are invited to submit an abstract via email by **Friday 31st July**. Abstracts will follow the format used for the ASCEPT annual scientific meeting and is as follows:

1. Size and Presentation of Abstracts

- Page size must be set to A4.
- As abstracts must fit within a print area of 16.5 cm wide by 11.0 cm high, margins should be set to L = 2.25 cm, R = 2.25cm, Top = 2.0 cm, Bottom = 16.7 cm.
- Do not apply paragraph indents - the full width of the abstract dimension must be used.
- Justify entire abstract.
- Single line spacing must be used throughout the abstract.
- Ensure all lines, tables and figures fit within the margins.
- The abstract should be typed using 10 point Times New Roman font. DO NOT use bold type.

2. The abstract title should be in upper case.

3. Authors

Author names should be underlined and follow on from the abstract title. Author names should be in sentence case, with author name initials being in upper case, with presenting author first; Eg. IP Three, RA Dioligand & A Medic. For authors from more than one department or organisation, affiliations are to be designated by numerals in brackets after each author's name.

4. Addresses

Addresses should be underlined and follow on from author names in the following order: Department, Institute/Organisation, State, Postcode; eg. Dept of Pharmacology, Univ of Yarrawonga, Vic 3730. NOTE: Abstracts from outside Australia should also list city and country.

5. Text

Leave a single line space between title/authors and the main text of the abstract. Do not indent the first line of text but type as one block of text. Leave an additional line space between the main text of the abstract and any references. The abstract should be justified. The text should be as informative as possible within the limitations of the space available and should contain relevant information on methods used and key data obtained. Conclusions drawn from data presented should be clearly outlined.

For more information, including a sample abstract please visit:
